

5. AMENDMENTS TO THE 2023-2026 TRANSPORTATION IMPROVEMENT PROGRAM AND THE 2045 REGIONAL TRANSPORTATION PLAN

### BACKGROUND

---

The 2023-2026 Transportation Improvement Program (TIP) is a four-year capital improvements program for transportation projects. Under federal rules, all federally assisted projects must be included in the TIP to be eligible for funding. In addition, federal rules require that regionally significant local projects must also be included in the TIP.

The 2045 Regional Transportation Plan (RTP) is a long-range plan that prioritizes spending on regional transportation projects including short and long-range strategies to ensure the transportation network is safe and efficient. Updated every four years, the RTP outlines a fiscally constrained transportation investment program that is based on the unique needs and characteristics of the MPO region.

Amendments to the TIP and RTP are brought to the Transportation Policy Council for consideration monthly and amended in accordance with the H-GAC Public Participation Plan.

## Priority Use of TDCs

**TDC Priority**  
Support of Federal Transit Funding

**Please explain how the use of TDCs will help meet the priority established for this project.**

In our rural/small urban area many non-profits struggle to meet the local requirement of the 5310 federal grant award of 20%. Transportation costs are a large percentage of their local budget. The smaller non-profits trying to compete with larger non-profits are at a disadvantage. The larger non-profits are sometimes unable to use all of the 5310 federal funds within the program performance period and grant funds are returned and reallocated to another community outside of the intended formulary grant area. The TDCs would benefit the enhancement of mobility for seniors and individuals with disabilities by providing more options for transportation services in the intended designated transportation service area.

## Maintenance of Local Investment

**Roadway, Transit, or Other Project?**  
Transit Project

**Explain and document the effect the TDC's will have on local and non-federal funding support for existing transit services.**

The TDCs would assist local non-profit organizations providing enhanced mobility for seniors and individuals with disabilities a more competitive opportunity to apply for and be awarded 5310 federal grant funds. Many non-profits that offer transportation use a portion of their annual budget to fund the required local match and this can be a strain on financial resources that can fund other services within their program. The TDCs assist in meeting the required local match creating a more equitable and accessible transportation program increasing competition between small and large non-profits sub-recipients. TDCs allow for more of the federal formula grant funds to serve the intended designated community's population over a larger service area.

The City of Conroe's transit agency, Conroe Connection, currently operates a four fixed bus routes and a complementary ADA Paratransit Program. The program will need to purchase additional vehicles to meet the demand of ridership that continues to grow due to the growth of population over the last ten years. The City of Conroe's transit system, Conroe Connection, requests TDCs to match the local 20% match for formulary 5339 vehicle replacement funds. The City of Conroe currently uses local annual budget to meet the local match federal requirement. Conroe Connection is working toward a more efficient and effective transportation service and would like to focus any local budget savings from TDCs to expanding transportation services to serve a larger amount of the population.

FY2021 allocation of Section 5307 federal funds are authorized under the FAST Act and therefore are subject to a cap on the use of federal funds for operating reimbursement. With FAST Act apportionments, Fort Bend County is using TDC's to match capital funds to allow local funds, generally allocated to these projects, to be used instead for additional operating costs in excess of the operating cap. The federal operating cap imposed by the FAST Act is well below the amount which would have typically been eligible for federal reimbursement; consequently, Fort Bend County will use local match cash for the resulting deficit in federal reimbursement. Fort Bend County provides local match cash in support of public transportation services and has a local funding budget of \$2,456,143 for FY2023.

## Priority Use of TDCs

### TDC Priority

Support of Federal Transit Funding

### Please explain how the use of TDCs will help meet the priority established for this project.

FY2022 allocation of Section 5307 federal funds are authorized under the FAST Act and therefore are subject to a cap on the use of federal funds for operating reimbursement. Fort Bend County will use TDC's as match and use local funds, generally applied to capital, planning, and operating, to cover additional operating costs in excess of the operating cap.

## Maintenance of Local Investment

### Roadway, Transit, or Other Project?

Transit Project

### Explain and document the effect the TDC's will have on local and non-federal funding support for existing transit services.

With FAST Act apportionments, Fort Bend County is using TDC's as match to allow local funds, generally allocated to these projects, to be used instead for additional operating costs in excess of the operating cap. The federal operating cap imposed by the FAST Act is well below the amount which would have typically been eligible for federal reimbursement; consequently, Fort Bend County will use local match cash for the resulting deficit in federal reimbursement. Fort Bend County provides local match cash in support of public transportation services and has a local funding budget of \$2,456,143 for FY2023.

## Priority Use of TDCs

**TDC Priority**  
Support of Federal Transit Funding

**Please explain how the use of TDCs will help meet the priority established for this project.**

GCTD will use TDCs as a match for the FY22 METRO FTA 5339 funding and use existing local and non-federal funds, which would have been applied to these operation costs, to support ongoing transit operations and the purchase of rolling stock.

## Maintenance of Local Investment

**Roadway, Transit, or Other Project?**  
Transit Project

**Explain and document the effect the TDC's will have on local and non-federal funding support for existing transit services.**

TDCs will allow GCTD to utilize 100% of the METRO FY22 5339 funds for operating expenditures so the local and non-federal funding normally allocated to these projects can be used for support of public transit. GCTD continues to provide local funding in support of public transit and has a local funding budget of \$750,000 for FY 23
