## Chapter3 — Highway Project Listing

---

### FEDERAL, STATE, AND LOCAL REGIONALLY SIGNIFICANT PROJECTS

This chapter of the 2023-2026 TIP lists highway projects for which federal action is sought and those state and locally (including private) funded highway projects considered to be regionally significant. Federal and state funding programs are organized by TxDOT into the twelve (12) categories shown in the Unified Transportation Plan (UTP). A complete description of these funding categories, an explanation of the selection process for each category, and applicable funding requirements and restrictions is provided in Appendix E of this document.

In general, these programs support projects such as:

- New roadways
- Road widening
- Major roadway reconstruction
- Major intersection improvements, including interchanges
- Access Management
- Transportation Operations/ITS
- Regional Air Quality programs
- Pedestrian/Bicycle facilities
- Transit and Freight projects funded w/flexible funds

### PROJECT LISTING

The project listing in this chapter is provided in the format required by the Texas Department of Transportation (TxDOT) for inclusion in the Statewide Transportation Improvement Program (STIP). The listing is organized by TxDOT District (Beaumont and Houston), and fiscal year. Under each fiscal year, projects are sorted by county, highway name, and identification number (CSJ Number or MPOID).

The diagram below is a guide on how to interpret the tables and indicates where to find key project information within the listings.

**FISCAL YEAR**

Consistent with the State fiscal year, fiscal years in the 2023-2026 TIP begins on September 1st and continue through August 31st of the following year. Applying this rule to the 2023-2026 TIP, fiscal year 2023 begins September 1, 2022 and ends August 31, 2023.

Fiscal years are used in the TIP project listing to show the year in which funds are committed to a particular project or project phase. All projects in 2023-2026 TIP are fiscally constrained and have identified funding commitments.

**TOTAL PROJECT COST**

In addition to the funding programmed in the 2023-2026 TIP, an estimate of the total project cost is provided for each project. The total project cost estimate is provided to communicate the overall investment being made to the transportation system and may reflect work that has already occurred or that may occur after the time period covered by the TIP.

The total project cost estimate reflects all facets of the referenced project, including design and engineering costs, needed acquisition of rights-of-way or utility relocations, and construction contingencies.

### **YEAR OF EXPENDITURE (YOE)**

Funding and costs for all projects is shown as nominal year of expenditure (YOE) dollars as opposed to current dollars or indexed dollars (such as “2022 dollars”).

### **STATEWIDE PROGRAMS**

The project listing also includes a list of statewide programs – often referred to as “Grouped CSJs.” These programs represent investments in categories of work (such as bridge replacement, safety, or landscaping) where individual projects are not considered to be regionally significant. Grouped CSJ projects are exempt from conformity/regional emissions analysis and typically require limited environmental review documentation (categorical exclusion).

These work types are typically programmed by TxDOT and are fiscally constrained at the statewide level. A current listing of individual projects under these Statewide Programs is provided for information in **Appendix J**.
