

# NCTCOG ON-SITE SEWAGE FACILITY DATA COLLECTION

August 22, 2024

Clean Waters Initiative Workshop - On-Site Sewage Facilities

*This project was  
funded by the U.S.  
Environmental  
Protection Agency  
through the Texas  
Commission on  
Environmental  
Quality.*

# PROJECT TIMELINE

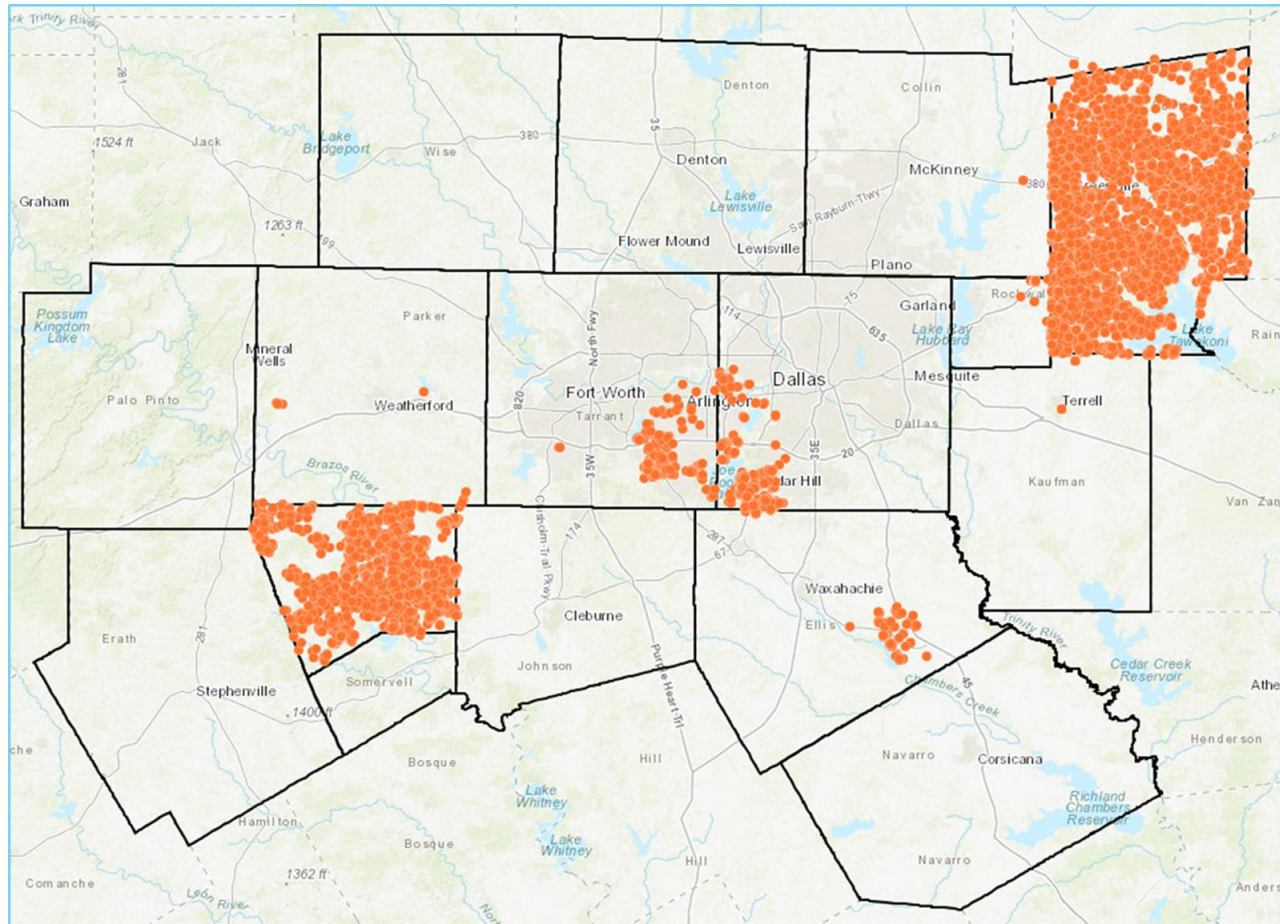

Fiscal Year  
2021- Began  
OSSF data  
collection

Fall 2023-  
Began hosting  
OSSF AA  
Roundtables

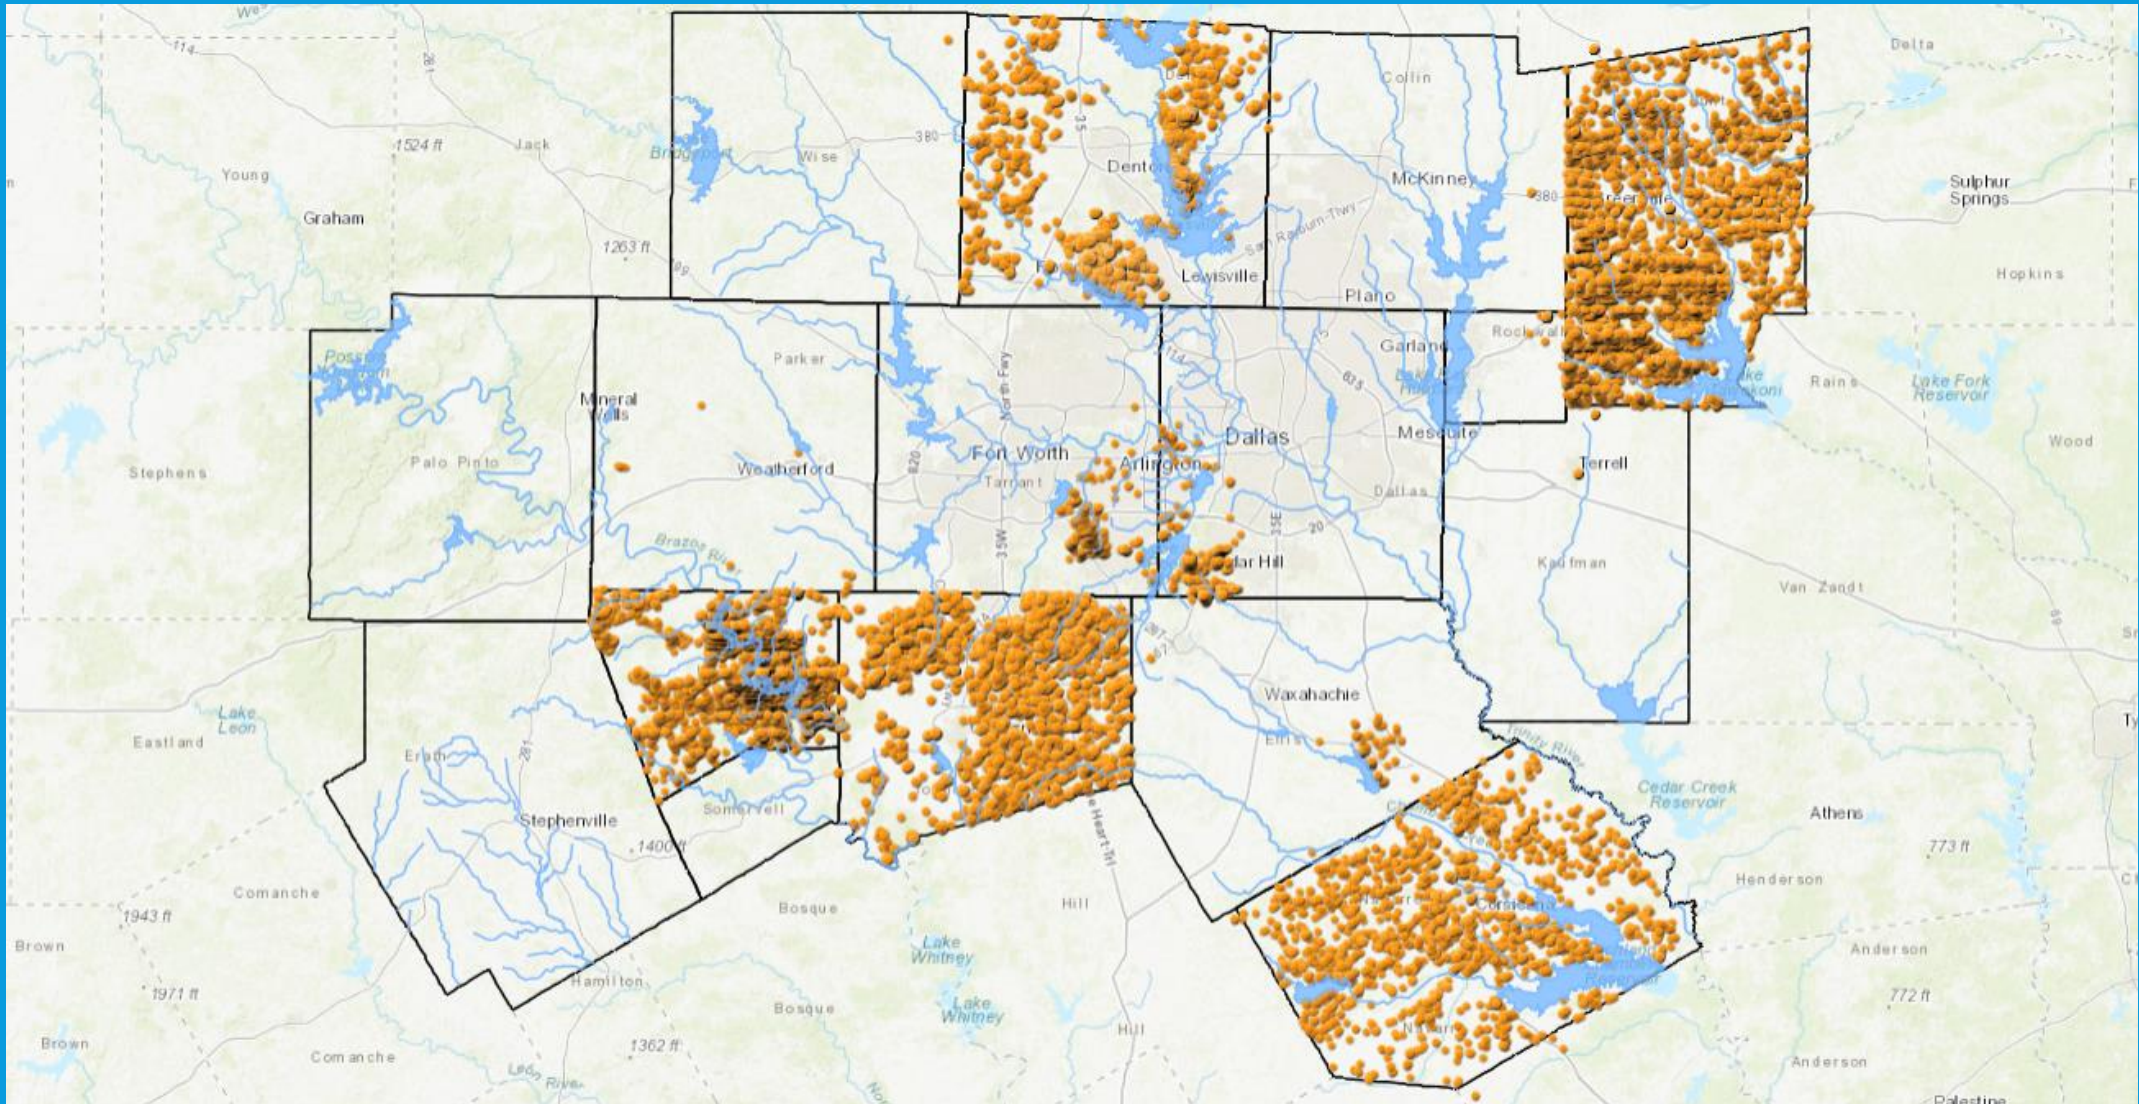

Spring &  
Summer 2024-  
Build out of data  
beyond simple  
locations

## SEPTIC SYSTEM GRANTS FOR HOMEOWNERS IN THE JOE POOL LAKE AND VILLAGE CREEK-LAKE ARLINGTON WATERSHED

In an effort to improve water quality and protect public health, the Joe Pool Lake and Village Creek-Lake Arlington Watershed Partnership, in collaboration with Texas A&M AgriLife Extension **has grant funding available to replace or repair failing septic systems** that may be contributing to water quality impairments **in the Joe Pool Lake and Village Creek-Lake Arlington watershed.**

You may be eligible for a grant to **cover up to \$8,000 of the cost for the design, permitting, and installation of a new septic system** in the portions of Dallas, Ellis, Johnson, and Tarrant Counties located within the Joe Pool Lake and Village Creek-Lake Arlington watershed.
