## **FEDERALLY FUNDED HIGHWAY PROJECTS**

**This page left blank intentionally.**

**FEDERALLY FUNDED HIGHWAY PROJECTS  
FOR THE  
2002-2004 TRANSPORTATION IMPROVEMENT PROGRAM**

This chapter of the 2002-2004 TIP contains projects to be funded using a federal funding source. These projects are grouped under the funding categories set by TEA-21 and the TxDOT Unified Transportation Plan (UTP) as shown in the detailed listing on the following pages.

The following categories are included under the federal funding source: Interstate Construction, Interstate Maintenance, National Highway System (NHS), Surface Transportation Program (STP), Congestion Mitigation & Air Quality Improvements (CMAQ), Bridge, Commission Strategic Priority, Demonstration Projects, Miscellaneous (Ferry Boat), and the Federal Land Highway Program.

Federal and state legislation specifies the types of projects that may be eligible to receive funding under particular provisions. For example, to be eligible to receive funding under STP, a project must address the needs of urbanized populations of 200,000 or more and can only be used on roadways with a functional classification higher than a local road or minor collector (among other requirements). Those projects that have been proposed for the TIP must be eligible for one of the available categories of funding, as shown in the following pages.
