

8. RESCIND PREVIOUS ACTION ON UNIFIED PLANNING WORK PROGRAM (UPWP)  
AMENDMENT TAKEN 8-23-24 DUE TO LACK OF CLARITY

**BACKGROUND**

---

At the August 23, 2024 Transportation Policy Council meeting, the TPC took action to amend the Unified Planning Work Program (UPWP) to move funding within categories and support the purchase of an electronic project database. During the discussion, confusion arose between the intended action and the designation of a vendor who may take on this activity. A possible vendor for this activity presented an overview of their system during the meeting, creating additional confusion to the matter at hand.

**CURRENT SITUATION**

---

Although the action is clearly articulated in the meeting minutes, the additional confusion and uncertainty combined with ongoing procurement activities at the time have resulted in the TPC Chair requesting that the action be rescinded. This action will help provide clarity and allow a fresh procurement to take place.

**ACTION REQUESTED**

---

Rescind approval of Amendment UPWP 2024-01.
