Standard Pricing Conditions:

- pricing is based on the information provided and will be confirmed following receipt of a completed waste profile. All pricing is pending profile approval and/or waste sample analysis.
- Pricing is based on the volume assumptions provided. Clean Earth reserves the right to adjust pricing if waste quantity differs from what was provided.
- A minimum charge of \$350 applies to all invoices.
- Transportation, labor and equipment is portal to portal, and requires a four hour minimum unless otherwise specified.
- Unless otherwise specified, transportation rates include one hour of loading at the customer facility. Demurrage rates will apply after one hour and will be billed in 15 minute increments.
- All invoices are subject to applicable Federal, State, and local taxes & fees as well as an Energy & Insurance recovery charge tied to the National monthly average price for diesel fuel as published by the Department of Energy. <https://www.cleanearthinc.com/energy-and-insurance-fe>
- E-Manifest Fee of \$25 will be applied
- In order to offer the safest and most complete services, we may need to apply price adjustments as necessary to cover costs that are beyond our control such as extraordinary or unexpected increases in disposal costs, regulatory changes, economic changes, war, etc.

Waste Specific Conditions

- Disposal prices for gas cylinders are for those with original label, operable valve and in acceptable DOT shipping condition.
 - Unknown identification fee of \$350 may be charged for each unknown gas that is sampled and analyzed
 - A confirmation fee of \$200 may be charged for each suspected gas that requires confirmation due to lack of original label. If results do not match suspected contents, then unknown ID rate will apply along with additional disposal costs if applicable.
 - Inoperable valve fee: No charge for Category A cylinders. For Categories B thru E, a tapping fee of \$350 per cylinder will apply regardless of size of cylinder. For categories F & G, inoperable valve fee will be Case-by-Case.
- Batteries not in original manufacturer’s packaging must have both ends taped to avoid arc. Additional fees may apply if Clean Earth personnel must tape the battery ends.

General Disposal Terms and Conditions

- Bulk waste is typically defined as tanker or roll-off loads.
- Non-bulk waste means drums, boxes, totes, pails, bags, and cubic yard boxes and other containerized waste.
- Electronic profiling is included in the price. Paper profiles will be charged at \$50 each.
- Unless otherwise specified, prices quoted do not include the following:
 - Radioactive Waste
 - Biohazard or Infectious Waste
 - Explosives of any type
 - Liquid or free mercury
 - Isocyanates
 - Reactive materials (metals, solids, liquids)

Non-Specified Container Conversion	Conversion	Conversion Table Notes
1-5 gallon	35%	<ul style="list-style-type: none"> • These conversions will apply to all disposal and transportation items • Prices per container are quoted separately • Minimum disposal fee of \$350 applies to all invoices • Minimum disposal fee of \$200 may be charged for each suspected gas that requires confirmation due to lack of original label. If results do not match suspected contents, then unknown ID rate will apply along with additional disposal costs if applicable. • The greater of the conversion factor or location container minimum of \$40 will be applied unless quoted a different rate. • Smaller container sizes can be converted to larger containers using the following steps: 1) Divide the smaller container price by its conversion factor (e.g., 15 gallon price ÷ 35% = \$40) 2) Use the normal conversion table on the 55 gallon drum price to convert to other container sizes.
