

Harris County
ENGINEERING DEPARTMENT

Harris County Grants FY04 - FY08

Cheryl Burton Fentress, HHW Program
Manager
Harris County Engineering

Grant Year FY04

Money was used to fund Electronic Collection Events to be conducted in conjunction with the 4 annual HHW Collection Events

- \$53,000 was awarded
- Seven electronic collection events were conducted
- 1,160 residents brought items to the events
- 59.39 tons of electronics were collected

Grant Year FY06

Money was used to start a mobile collection program to provide smaller collection events in areas of the county not served by the larger one-day events

- \$87,000 was awarded for 9 events
- Purchased a gooseneck trailer, dually truck, 14' flat-bed trailer, and necessary equipment and supplies for the HazMobile program
- We still use the trailers and truck to conduct 8 smaller events yearly across Harris County

Grant Year FY07

Request was to purchase equipment to move, process, and store the HazMobile Waste in a safe and compliant manner at the soon to be permanent HHW Facility

- \$116,250 was awarded
- Purchased a fork-lift, hazardous storage locker, paint can crusher, equipment to be used at the events, and attended the NAHMMA conference
- We have purchased another forklift, and this forklift is used as a backup

Grant Year FY09

Request was to provide funding to renovate the property at 6900 Hahl Road to where it could function as a permanent HHW collection facility.

- Awarded \$579,400 and was amended to \$622,400
- Shed for the HazMobile / Security fencing and a new gate
- Construction to renovate 3 buildings (Operations, Office, and Training)
- 3 Section HazMat Locker to store Flammables, Toxins, and Corrosives
- 16' Flatbed Trailer
- Training materials (HazWOpER, tables, chairs, computer, projector / screen)
- Hoppers

We went from this.....

doors that didn't close, broken windows, gate that was not secure.....

To this!

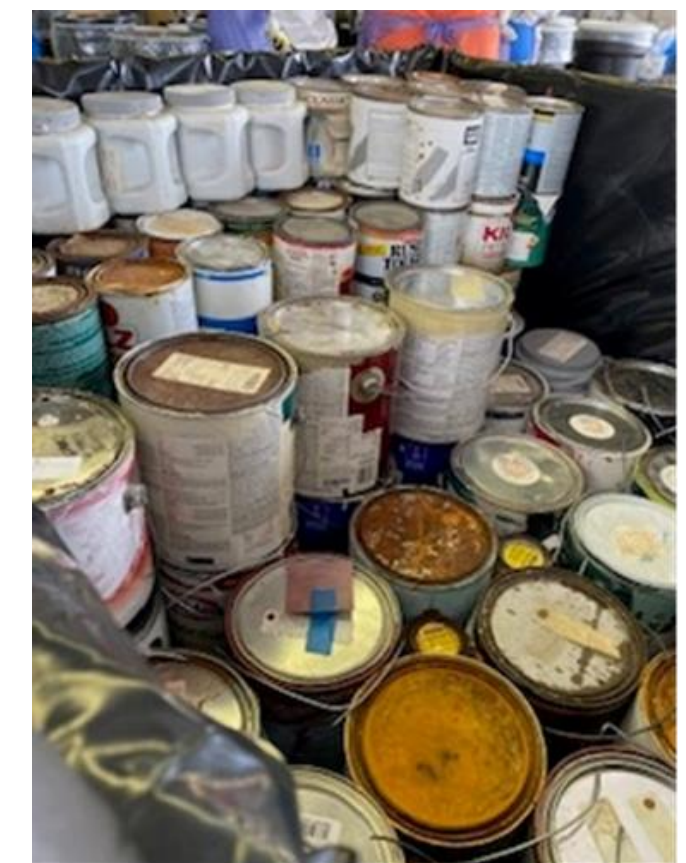

Harris County used the grant money to renovate instead of create!

As of today, we have...

- Collected over 5.9 million pounds of HHW at the permanent facility from 46,319 households
- Collected over 100,000 pounds of HHW at the HazMobile events from over 3,000 households
- Participated with the DEA Take-Back events for 5 years
- Conducted 3 Electronics events with SEP funds
- Expanded our program to include waste streams that other programs do not accept.
- The initial investment in our training program allows us to stand out above other training programs
