

5E. REGIONAL TRANSPORTATION PLAN (RTP) PROJECT DEVELOPMENT PROCESS UPDATE

**BACKGROUND**

---

The Regional Transportation Plan (RTP) is the long-term comprehensive plan for the MPO region that includes a fiscally constrained project list. The RTP Subcommittee, in conjunction with H-GAC staff, has developed the RTP Project Development Process, which calls for projects from local sponsors that are 10+ years away from construction. Local sponsors submitted projects online via H-GAC's website. The portal opened May 22, 2024, and closed on August 7, 2024. Ninety-nine projects with a total cost of roughly \$11.6 billion were submitted to the online portal and are being evaluated by H-GAC staff.

**CURRENT SITUATION**

---

Submitted projects are being analyzed to determine if they are eligible for inclusion in the RTP and are undergoing an internal fiscal constraint process. The result will be a fiscally constrained RTP project list.

**ACTION REQUESTED**

---
