

5B. AMENDMENTS TO THE 2023-2026 TRANSPORTATION IMPROVEMENT PROGRAM AND THE 2045 REGIONAL TRANSPORTATION PLAN

BACKGROUND

The 2023-2026 Transportation Improvement Program (TIP) is a four-year capital improvements program for transportation projects. Under federal rules, all federally assisted projects must be included in the TIP to be eligible for funding. In addition, federal rules require that regionally significant local projects must also be included in the TIP.

The 2045 Regional Transportation Plan (RTP) is a long-range plan that prioritizes spending on regional transportation projects including short and long-range strategies to ensure the transportation network is safe and efficient. Updated every four years, the RTP outlines a fiscally constrained transportation investment program that is based on the unique needs and characteristics of the MPO region.

Amendments to the TIP and RTP are brought to the Transportation Policy Council for consideration monthly and amended in accordance with the H-GAC Public Participation Plan.

CURRENT SITUATION

A summary of the proposed revisions to the 2023-2026 TIP and 2045 RTP is included below for the Committee's review.

- Program \$2.0M of Congestion Mitigation/Air Quality (CMAQ) funding in FY 2024 (MPO ID 19035) as a supplement to Fort Bend County Public Transportation's Westpark Tollway Park and Ride construction project (MPO ID 11537) to cover increased estimates for construction materials and labor. 400K Transportation Development Credits (TDCs) will be use in lieu of matching funds. (+\$2.0M; Total: \$6.1M)
- Add \$623K of Surface Transportation Block Grant (STBG) funding, split 80/20, to Brazoria County's of County Road 58 4-lane widening project (MPO ID 17109) to cover increased estimates for construction that are due to inflation. (+\$623K; Total: \$7.0M)
- Add \$72K of Federal Transportation Administration (FTA) Section 5310 funding for administration of METRO's Enhanced Mobility of Seniors and Individuals with Disabilities Program (MPO ID 18974) to cover increased program functions. (+\$72K; Total: \$77K)
- Replace \$50.7M of local funding of METRO's Emergency Operation Center construction project (MPO ID 18760) with \$64.1M of FTA Section 5324, Public Transportation Emergency Relief Program, funds. Also, update the project description and advance it from FY 2025 to FY 2024. (+\$13.5M; Total: \$64.1M)
- Delay METRO's Baker Ripley Senior Health and Wellness Ride Expansion project (MPO ID 18962) from FY 2023 to FY 2024 and update the apportionment year in its project description. (Total: \$1.7M)

- Delay METRO’s Center for Pursuit Purchase of ADA Vehicle project (MPO ID 18963) from FY 2023 to FY 2024 and update the apportionment year in its project description. (Total: \$80K)
- Delay METRO’s City of West University Place ADA Access Improvements project (MPO ID 18964) from FY 2023 to FY 2024 and update the apportionment year in its project description. (Total: \$800K)
- Delay the City of League City’s North Landing Boulevard construction project (MPO ID 17080) from FY 2024 to FY 2025 due to issues with right-of-way acquisitions and utilities relocations. (Total: \$63.8M)

RE: Brazoria County - County Road 58 Project
From Savannah Development to County Road 48
MPOID/CSJ: 17109/0912-31-304
Request for STIP Amendment

Dear Mr. Raborn,

County Road 58 was selected by the Houston Galveston Area Council (H-GAC) to receive funding from Federal and State transportation funds through the 2015 Transportation Improvement Program (TIP) call for projects with an estimated construction cost (that should've included Construction Engineering and Inspection costs) of \$6,347,770.00. Today's project costs are significantly higher than estimated.

This project was let and awarded in December of 2023 to the lowest bidder in the amount of \$6,160,000.00. In addition, the construction engineering and inspection required for this project is awarded to AECOM Technical Services, Inc. in the amount of \$810,666.00 via Brazoria County Commissioners Court Order 8.O.3 dated February 14, 2023.

Therefore, Brazoria County respectfully requests an increase in funds for the subject project in the amount of \$622,900.00, split 80/20, to cover the increased construction cost due to inflation.

We believe that this project remains vital for the community and are confident that the additional funding will enable us to complete it successfully and within a reasonable timeframe. We are available to discuss this request further at your convenience.

Sincerely,

Matt Hanks, P.E.

RE: Cost Increase Request – Westpark Park and Ride Construction

Dear Mr. Raborn,

Fort Bend County is requesting additional funding to cover increased construction costs for the Westpark Park and Ride facility. The Westpark Park and Ride will provide commuters with a reliable, convenient, and affordable transportation option, as well as help reduce traffic congestion and improve air quality.

Fort Bend County is rapidly growing, and this improvement is necessary to support the expanding population. The County is requesting \$2.0 million in federal funds, to be matched with Transportation Development Credits, for this transit project.

The cost to construct a park and ride facility has escalated over the past few years. In 2020, the estimated cost was \$3.65 million, which increased to \$4.45 million in 2021 and to \$6.13 million in early 2023. The current cost estimate is over \$7.0 million. This increase in cost can be attributed to several factors, including inflation, rising material and labor costs, and supply chain issues. Despite these challenges, the park and ride facility remains a valuable resource for commuters, providing a convenient and cost-effective way to travel to work or access other important destinations.

Thank you for considering our request for additional funding for the Westpark Park and Ride facility. This investment will improve the accessibility and convenience of public transportation in the Fort Bend County community for many years to come.

Sincerely,

Priority Use of TDCs

TDC Priority

Support of Federal Transit Funding

Please explain how the use of TDCs will help meet the priority established for this project.

Fort Bend County will use TDC's as match and use local funds to support other ongoing public transit needs.

Maintenance of Local Investment

Roadway, Transit, or Other Project?

Transit Project

Explain and document the effect the TDC's will have on local and non-federal funding support for existing transit services.

Fort Bend County is using TDC's as match to allow local funds to be used for operating costs over the operating cap. The federal operating cap imposed by the FAST Act is well below the amount that would have typically been eligible for federal reimbursement. Fort Bend County continues to provide local funding in support of public transportation services and has a local funding budget of \$2.4M for FY2024.
